We, the undersigned, call upon the Attorney General and the U.S. Department of Justice to reinvestigate the assassination of Senator Robert F. Kennedy on June 6, 1968. In particular, we call for an investigation of the Department's endorsement of the official prosecution theory that only one gunman fired shots during the attack on Senator Kennedy. We also call for an investigation of the role of the U.S. Attorney's office in Los Angeles in blackmailing Sirhan Sirhan's trial attorney, Grant Cooper, with the threat of prosecution before and during Sirhan's trial.
